

Week 7 Task List Math 108

Important Note : Notice the established pattern between the **preparation** and **practice** in the task lists. In each section, you take notes on a **lecture**, **read** an objective and example in your text, and work the corresponding **practice** problems from the text. Then, you **read** a little more, **practice** corresponding problems, read, practice, etc. If more practice is needed, you try corresponding problems in your **workbook**. **From now on**, the task lists will state a range of pages in your text for you to study. After a lecture, read through the pages indicated in the task list, stop after each example to practice the “Now Try Exercises” listed after that example (below and to the right), and continue to use your workbook for more practice as needed (problems in workbook correspond to objectives in text).

Other Resources: Next to the problem number, if there is a picture of a CD (in the textbook) or a video camera (multimedia text) this means there is video instruction for this problem in the multimedia text in your MML account. There are also icons called “Exercises” that you can click on to access interactive problems similar to the problems in the text. The multimedia text has video instruction clips for every example. Some examples also have animation clips and You Try It problems. **Make use of the resources you like the best, but follow the process of **preparation** and **practice** before starting assigned homework.**

Preparation 10.2

- Take Notes on a Lecture: [MyMathLab Lecture](#)
[Campus Lecture](#)
[TV Lecture](#)

- Read pg. 670-675

Practice 10.2

- “Now Try”
Exercises after
each example

More Practice (when needed)

- Workbook Problems
after each Objective

Assignments 10.2

- Week 7 Homework** in your MyMathLab account
Exercises #28-52
(Similar problems will appear on the quiz)

Preparation 10.3

- Take Notes on a Lecture: [MyMathLab Lecture](#)
[Campus Lecture](#)
[TV Lecture](#)

- Read pg. 678-682 (Stop after example 8)

Practice 10.3

- “Now Try”
Exercises after
each example

More Practice (when needed)

- Workbook Problems
after each Objective

Assignments 10.3

- Week 7 Homework** in your MyMathLab account
Exercises #53-72
(Similar problems will appear on the quiz)

- Mixed Practice **Week 7 Homework** in your MyMathLab account
Exercises #73-89

- Week 7 Quiz** in your MyMathLab account
(You have two attempts for this quiz)
