1. This list is not in final form.

2. The final is

   Monday
   5/7/07
   10:30 AM - 12:30 PM.

3. A continuing big deal is the page-166 Friendly-Faces List, now enhanced with exponential and logarithm functions. And the section-2.4 “moves”.

4. Know the EIGHT Laws of Logarithms!

5. (a) Click [here](#) for the 4/20/07 review-problem set. And [here](#) for an answer key.

   (b) Click [here](#) for the 5/2/07 review-problem set. And [here](#) for an answer key.

   (c) Click [here](#) for the 5/4/07 review-problem set. And [here](#) for an answer key.

6. The following suggests a review based on problems which didn’t pan out well for you on the various tests.

   You could begin by looking at the problems where you and the class got low scores. The following suggests odd-numbered from-text problems resembling the exam problems.

7. Reviewing our test #1:

   (i) Problems 1 and 2: Similar triangles and Pythagoras (1.6: 33, 47, 49)

   (iii) Problem 4: Calculus factoring: (1.3: 97, 99, 101, 103)

   (iv) Problem 5: When bars and substitutions:

      (a) Click [here](#) for problems and [here](#) for answers.

      (b) Click [here](#) for some substitution problems. And [here](#) for an answer key.
