The assignments and syllabus will be at links from the webpage:

http://math.boisestate.edu/~kerr

Where it says **Fall 2004 courses**, click on **MATH 170**. This will bring you to the **Assignment Page** where assignments and announcements will appear. You’ll resort to this page constantly.

On the **Assignment Page** there’s a link, “Policies”, to the **Policy Page**

Find the course web pages and answer the following:

1. The dates for Tests #1 and #5: ________________

2. When is the last day to drop a class? ________________

3. When are the instructor’s Friday office hours? ________________

4. How many extra-credit points will a student get if he phones the instructor to point out that there’s an incorrectly terminated sentence above? ______

5. Suppose a student earned these scaled percentages on homework and exams:

<table>
<thead>
<tr>
<th>Home Work</th>
<th>Test #1</th>
<th>Test #2</th>
<th>Test #3</th>
<th>Test #4</th>
<th>Test #5</th>
</tr>
</thead>
<tbody>
<tr>
<td>83</td>
<td>81</td>
<td>76</td>
<td>85</td>
<td>82</td>
<td>77</td>
</tr>
</tbody>
</table>

If the student earns a 79% on the final, the final letter grade will be ____.

6. Suppose the student in problem 5 earned only a 65% on the final. In that case the final letter grade will be _____, based on percentage _______%.
7. What is the file name for the first .pdf file in the directory “Handouts (.pdf)”? (Also reachable from the PDF button on the assignment page.) __________________________

8. Show steps to work out problem 2 in the file you found in question 7.
